RAG	REVISED	QUESTION

REVISION TIPS

- Make revision notes/flash cards/mind-maps/concept maps using the Revision Guide.
- Attempt at least two questions on each topic using the Revision Guide or the Workbook.
- Remember to focus on covering all **formulae** within the topics and practise the **maths skills** you will need to answer calculations – this is 20% of the exam.
- Remember to revise all **required practicals** ensuring you understand and can plan the method, safety issues and variables – this is 15% of the exam.
