ALL YEAR 7 PARENTS/CARERS

Dear Parents/Carers

Re: Target Grades

Target grades (both for the end of this year and for the end of Year 11) have now been added to every Year 7 students page on Go4Schools.

These grades give a rough indication of where every child should be as they progress through the school on a year by year basis and are usually based on KS2 SATs results. Obviously, these exams did not happen last year and so every student took a CAT4 exam (online cognitive ability test) earlier this year.

The results of these CAT4 tests have now been analysed and used to generate the targets now showing on Go4Schools. We are of course aware that these targets are not as robust/accurate as KS2 examinations would have been and so we will review them at the end of every year making any necessary adjustments (up or down).

Yours sincerely

Nick Grundy
Assistant Head Teacher
